For Immediate Release:

Automated Facility Solutions Instrumental in Helping Buildings in Raleigh, North Carolina Achieve LEED Accreditation

Redmond, WA (June 9, 2011)—Trend Control Systems (www.trend-americas.com) announced today the recent recognition of Automated Facility Solutions, a Trend Technology Center. In January 2011, the *Triangle Business Journal* (www.trianglebusinessjournal.com) ran a list showcasing the top twenty-five LEED accredited buildings in Raleigh, North Carolina ranked by square footage. After a review of the listings, it was determined that six of the top twenty-five buildings obtained this certification due to the work and efforts of Automated Facility Solutions with Trend Control Systems.

“Genworth, Assisi Community Center, Assisi Early Childhood Learning Center, Our Lady of the Angels Chapel, the Imperial Tower and Quintiles are all buildings that we are proud to say that we have worked on,” said Kevin Riley, Division Manager at Automated Facility Solutions. Automated Facility Solutions successfully designed, installed, commissioned, and provides service and support for the Trend building automation system which has played a major role in securing LEED points toward certification in all of these facilities.

For more information about Automated Facility Solutions please call 919.851.5800 or visit www.afs-nc.com.
