

For Immediate Release:

20 Years of Energy Experience: Trend Control Systems Welcomes Newest Technology Center, Arizona Comfort Zone

Redmond, WA (May 13, 2011)—Trend Control Systems (www.trend-americas.com) announced today the recent partnership with Arizona Comfort Zone, LLC (ACZ) as its latest Trend Technology Center for the Tucson and Flagstaff counties. ACZ leadership has over 20 years of experience in the building automation field and has made a commitment to providing energy saving solutions to commercial and industrial businesses, municipalities, school districts and others throughout Arizona. Combining 20 years of experience in controls solutions with Trend Control Systems proven building energy management systems will allow ACZ to offer even more energy saving solutions to their customers.

“Arizona Comfort Zone, LLC has a passion for selling solutions and energy benefits to their customers that brings real results to building owners,” said Sophia Bellos, Regional Sales Manager for Trend. “The combination of Trend’s technology with ACZ experience in the Building Automation field will provide a stronger, more complete, solution for customers in Tucson and Flagstaff.”

“Arizona Comfort Zone has partnered with Trend to provide our valued customers with a complete solution for their building HVAC and controls needs,” said Tim Crook, Sales Manager for ACZ. “Trend offers a strong building automation portfolio that enhances our ability to provide the most efficient solutions that will benefit our customers.”
